

WORK PLAN REPORT

NONROAD SUBCOMMITTEE

GOALS:

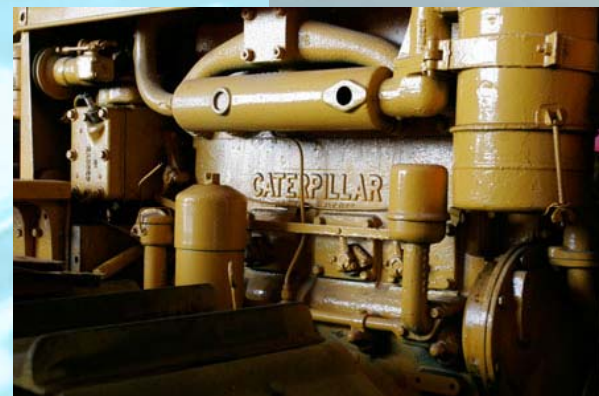

- Establish Construction Sector Projects
- Establish Agriculture Sector Projects

Construction: Tasks/Milestones

- Provide outreach to all the state's DOTs, and Environmental Agencies, and at least 20 MPOs on potential non-road projects - (8/06)
 - Anti-idling,
 - Clean fuel use,
 - Inventories,
 - Retrofit/re-power/rebuild/replace,
 - Financial impacts,
 - Environmental results

Construction: Tasks/Milestones

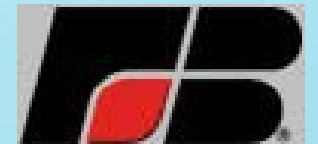

- Identify an inventory of contractor fleet equipment needs - (6/07)
- Identify funding potential funding sources – (2/08)
- Provide outreach and partner with at least nine established contractors - (2/08)
- Initiate and develop three community emission reduction projects - (2/08)
 - Develop financial feasibility models for small, medium & large contractors

Agriculture: Task/Milestones

- Provide outreach on Blue Skyways to agriculture groups such as USDA, State Farm Bureaus, State Ag departments, ag co-op associations, ag product transporters, crop associations, etc... – (10/06)
 - Anti-idling,
 - No-till or reduced-till practices
 - Machinery upgrades or replacement,
 - Precision farming
 - Biofuel production and use,
 - Financial impacts,
 - Environmental results

Agriculture: Task/Milestones

- Gather current emission reduction research data on the different project types and behavior changes being promoted - (8/06)
- Identify current ag related emission reduction projects – (8/06)
- Identify funding potential funding sources – (2/08)
- Leverage resources to fund three ag emission reduction demonstration projects that could include no-till, biofuels use and production, engine upgrades, etc... – (2/08)

How can you help?

Construction & Agriculture

- Report recent, current or future emission reduction projects
- Identify and recruit communities to partner with the BSC
- Recruit companies to partner with the BSC
- Promote emission reduction practices
- Identify specific project opportunities and/or potential funding
